Summary

Sr. Software Engineer with 6+ years of proven leadership and meaningful contributions to teams of varying size and scope. With my results-driven mentality, I transformed my team at several company by seeking, learning, and teaching new, efficient technologies to make aggressive deadlines consistently achievable. Passionate about going the extra mile to ensure the customer is unquestionably satisfied with the product or service provided. With emphasis on scalable and well-documented code, I look forward to working collaboratively as well as spearheading independent projects.

Experience

SR. FULL-STACK ENGINEER | IMU STUDIOS | 2022 - 2024

- Automated the generation of the API endpoint documentation based on the JSON Schema models, reducing manual documentation effort.
- Partnered with 4 business team members to define technical requirements, and engineered a marketplace application using Next.js, Node.js, Express, and MongoDB.
- Published the travel booking web site using Vue.js, Material, Bootstrap, jQuery, SSR for front-end and Node.js, PostgreSQL, Restful API for back-end, AWS S3 services and CI/CD management.
- Utilized Angular 9, Reactive forms alongside the Form Builder for creating sophisticated forms with integrated validation, while enhancing the user interface through Angular Material components.
- Developed and maintained Wallcovering website based on React, Laravel 9.0, MySQL and authored unit tests for dashboard to ensure code quality and reliability.

SOFTWARE ENGINEER | LINKTREE | 2019 - 2022

- Engineered a backend Restful API system using Node.js and Express.js, enhancing data processing speed by 25% and reducing server response time by 10%, resulting in improved user experience.
- Architected and implemented a scalable .NET Core solution for a finance SaaS platform, boosting system efficiency by 7%.
- Constructed a local development environment using Docker 1.9.1 on macOS, incorporating Zend Framework (PHP), MariaDB, and a custom PHP compiler.
- Created robust CI/CD pipelines using Jenkins and Ansible, automating deployments which decreased manual intervention by 40%.

Education

BACHELOR OF INFORMATION TECHNOLOGY | JUNE 2023 | ABLIY KHAN UNIVERSITY | ALMATY, KAZAKHSTAN
